

Educational Programs 2023 - 2024

Dear Colleagues,

It is with great pleasure that we invite you to join us at Bascom Palmer Eye Institute's educational events. A foundation of Bascom Palmer's mission is its emphasis on ophthalmic education. The Institute is dedicated to learning, sharing knowledge, and creating a community of ophthalmologists and vision scientists around the world.

Bascom Palmer's extensive 2023-2024 calendar of events includes clinically relevant continuing medical education courses; a highly regarded lecture series; the Inter-American Course in Clinical Ophthalmology; and Thursday morning's popular Grand Rounds where our faculty members, residents, and fellows present interesting ophthalmic conditions and treatments.

Last year, more than 22,000 users from 150 countries participated in Bascom Palmer's educational programs. If you are unable to join us in person, we encourage you to visit BascomPalmerLearn.org, your resource for ophthalmic education, including grand rounds, lectures, ophthalmic images, and surgical videos.

We look forward to connecting with you throughout the year as we learn, discuss and share the very best care for our patients together.

Very truly yours,

Eduardo Alfonso

45th Annual Inter-American Course in Clinical Ophthalmology (CURSO)

Bascom Palmer Eye Institute's XLV Inter-American Course in Clinical Ophthalmology (CURSO), is designed for practicing ophthalmologists to provide maximum emphasis on pragmatic approaches to clinical problems. While originally designed for ophthalmologists from Latin American and the Caribbean, practitioners from throughout the world will also benefit from CURSO's broad comprehensive update on all ophthalmic subspecialties. Attendees will gain knowledge and expertise shared by world-renowned invited speakers and members of the Bascom Palmer faculty. In addition to the extensive course material presented with simultaneous English-Spanish translation, more than 60 commercial exhibitors participate in an accompanying trade show.

Course Directors:

Eduardo C. Alfonso, MD
Guillermo Amescua, MD
Carol L. Karp, MD
Paul F. Palmberg, MD, PhD

Guest Speakers:

Esen Karamursel Akpek, MD
Juan F. Battle, MD
Ralph C. Eagle, Jr., MD
Joaquin Fernandez, MD, PhD
William F. Mieler, MD, FACS, FARVO
Anil Shah, MD
Arsham Sheybani, MD
Roberto Warman, MD

Registration Fee:

\$650 if received on or before
October 24, 2023,
\$750 if received after
October 24, 2023

Location:

DoubleTree by Hilton Hotel
Miami Airport and Convention
Center
Miami, Florida
Reservations by Phone:
1-800-774-1500

The modern DoubleTree by Hilton Hotel Miami Airport & Convention Center is connected to the Miami International Merchandise Mart and the Miami Airport Convention Center (MACC). The hotel is just minutes from the Miami International Airport (MIA) and offers 24-hour complimentary airport transportation to and from Miami International Airport.

Hotel Rates: \$185 plus tax;
single or double occupancy.

**No AMA Continuing Medical
Education Credits will be awarded
for this program.*

Reality Glaucoma: A Glaucoma Symposium

This one-day course is designed for physicians whose clinical practices include comprehensive ophthalmology and adult glaucoma care. Using an interactive, integrated approach, the distinguished speakers will present a variety of vignettes and practice pearls to illustrate topics in the diagnosis, monitoring and clinical/surgical management of glaucoma.

Course Directors:

Sarah R. Wellik, MD
Luis E. Vazquez, MD, PhD

Angiogenesis, Exudation, and Degeneration 2024 – Virtual Edition

Angiogenesis 2024 follows the tradition of excellence established by Bascom Palmer's widely acclaimed Angiogenesis programs between 2004 and 2023. Designed for retina specialists, general ophthalmologists and researchers, the current program will review the latest in imaging, translational research, and clinical trials with an emphasis on how these results will impact clinical ophthalmology. We will emphasize early phase clinical trials and recently completed studies focused on the treatment of a wide range of retinal diseases with special emphasis on age-related macular degeneration, diabetic retinopathy, and retinal vascular diseases.

Course Directors:

Philip J. Rosenfeld, MD, PhD
Harry W. Flynn, Jr., MD

Interactive Consultations in Cornea, Cataract and Refractive Surgery 2024

This two-day course is designed for ophthalmologists whose clinical practices include general ophthalmology, cataract, refractive surgery, and cornea. Using an interactive, case-based approach, the distinguished speakers will present a variety of vignettes and practice pearls to illustrate clinical dilemmas in the diagnosis and management of anterior segment diseases. The 2-day program will focus on cataract, refractive surgery, disorders of the cornea and external disease.

Course Directors:

Kendall E. Donaldson, MD, MS
Ellen Koo, MD

Guest Speakers:

Bascom Palmer Diagnostic Ultrasound Course: Clinical Ultrasonography for the Clinician

This one-day course will provide instruction, diagnostics and hands-on experience on the clinical use and application of ophthalmic ultrasound. The program is designed for practicing ophthalmologists, residents in training, and retina specialists looking to enhance and master the use of ophthalmic ultrasound to actively manage patients in their clinics. The program will review the history, instrument development, current available instrumentations as well as diagnostic concepts used for Posterior and Anterior (UHF) ophthalmic ultrasonography. In addition to didactics, the course will provide hands-on experience, case-based presentations and discussions with faculty and participants that will highlight the applicability of ophthalmic ultrasound in clinical decision making for the diagnosis and management of ocular pathology.

Course Directors:

Luis J. Haddock, MD
Zelia M. Correa, MD, PhD
Yale L. Fisher, MD

Registration Fee:

\$200

Visualize 2024: Advancements in Ophthalmic Imaging and Research

This comprehensive course will focus on the latest advancements in imaging techniques in ophthalmology and is designed to provide ophthalmologists, optometrists and other eye care professionals with a deep understanding of the cutting-edge technology used in the diagnosis, monitoring and management of numerous ocular conditions. The course will discuss advancements of imaging modalities in various subspecialties including cornea, glaucoma, neuro-ophthalmology, retina, uveitis and ocular oncology. With an emphasis on both practical applications and research, this course will empower participants to enhance their clinical skills and improve patient care.

Course Directors:

Maura Di Nicola, MD
Luis E. Vazquez, MD, PhD

Guest Speakers:

Justis P. Ehlers, MD
Alex A. Huang, MD, PhD
Elisabetta Miserocchi, MD

The 2024 Nasser Al-Rashid
Orbital Research Colloquium

This one-day scientific meeting assembles a broad array of research scientists and clinicians whose expertise and focus are principally directed to orbital oncology, traumatic optic nerve injury, and stem cell and biomedical innovations for immediate clinical application. The core objective of the meeting is to move the orbital research community to a more multi- and interdisciplinary scientific mindset by removing barriers and creating a conducive environment to collaborative interactions among investigators from different disciplines. The presentations will highlight cutting-edge molecular biology, genomic, and proteomic approaches to better understand the molecular underpinnings of these diseases and bring the state-of-the-art in advanced biomaterials and regenerative medicine technologies for translating research findings into clinical reality - with the ultimate aim of achieving improved visual outcomes and quality of life for orbital diseases in which effective therapy remains elusive.

Course Directors:
David T. Tse, MD
Daniel Pelaez, PhD

BascomPalmerLearn.org

Bascom Palmer Learn (bascompalmerlearn.org) is an online learning portal and educational resource for ophthalmologists and eye care professionals. This reservoir of educational tools provides free access to an ever-increasing collection of Bascom Palmer's Grand Rounds lectures, ophthalmic images, surgical videos, medical student courses, and other lectures. Physicians can also obtain continuing medical education (CME) credits.

Frontiers in Vision Science Lecture Series

The future of ophthalmology lies in the creation of new knowledge and technology and its rapid translation into the clinic to help people. Bascom Palmer Eye Institute's research mission is to make this happen through interdisciplinary team research and cutting-edge technology. The **Frontiers in Vision Science Lecture Series**, now in its 22nd successful season features distinguished scientists from across the nation.

Grand Rounds

José A. Berrocal Auditorium, Bascom Palmer Eye Institute

Bascom Palmer offers a wide variety of educational opportunities in addition to its highly regarded continuing medical education courses and distinguished lecture series.

Each Thursday morning from 7:00 a.m. to 8:30 a.m., Grand Rounds is presented **virtually**. Faculty, residents, fellows, medical students, and the global ophthalmology community come together to learn of the newest clinical research and treatments to increase their medical knowledge and improve patient care.

If you would like to virtually attend Grand Rounds, please contact Patricia Gonzalez at pmg101@miami.edu.
