## VASCULAR AND ENDOVASCULAR SURGERY

The **UHealth Division of Vascular and Endovascular Surgery** has assembled an expert multidisciplinary team dedicated to providing compassionate, state-of-the-art vascular care. Our team provides premier vascular and endovascular surgical services, as well as diagnostic testing, and is recognized as a leader in performing technically complex vascular surgeries. We receive referrals from the United States, Central and South America, and the Caribbean. We have an established tertiary and community-based practice with the reputation for excellence in minimally invasive care.

Please encourage your patients to bring all appropriate studies and data on their first visit, so that a personalized treatment plan can be developed and put into practice for the patient immediately.
