You are invited to Bascom Palmer's 2017-2018 educational programs

Dear Colleagues,

Bascom Palmer Eye Institute is pleased to present its extensive calendar of educational programs that highlight the latest advancements within ophthalmology. The Institute is dedicated to creating unique programs that allows you to learn and deliver the most current clinical care and to address emerging trends and technologies.

Eduardo C. Alfonso, MD

Join us at outstanding courses featuring the latest advances in ophthalmic imaging, glaucoma, retina, uveitis, cataract and refractive surgery. The robust schedule of events also includes the dynamic Distinguished Lecture Series where prominent clinicians and scientists present the latest developments within their specialties.

Finally, each Thursday morning, join us at Grand Rounds where our faculty members, residents and fellows address real-world clinical care problems and treatment.

Through this wide range of educational programming, we hope to provide you with valuable resources that enhance and expand your professional knowledge. We look forward to welcoming you to Bascom Palmer to join us in learning, discussing and sharing the very best care for your patients.

Very truly yours,

A handwritten signature in black ink that reads "Eduardo Alfonso". The signature is fluid and cursive, with the last name "Alfonso" being more prominent.

Eduardo C. Alfonso, MD

*Kathleen and Stanley J. Glaser Chair in Ophthalmology
Chairman, Bascom Palmer Eye Institute

Paul F. Palmberg, MD, PhD

Victor L. Pérez, MD

39th Annual Inter-American Course in Clinical Ophthalmology (Curso)

The Inter-American Course is designed for practicing ophthalmologists in Latin America and the Caribbean to provide maximum emphasis on practical approaches to selected clinical problems. Hundreds of ophthalmologists from more than 30 countries benefit from the program and its simultaneous English-Spanish translation.

Course Directors:

Eduardo C. Alfonso, MD
Carol L. Karp, MD
Paul F. Palmberg, MD, PhD
Victor L. Pérez, MD

Registration Fee:

\$575 on or before
October 27, 2017;
\$675 after October 27, 2017

**No AMA Continuing Medical
Education Credits will be awarded
for this program.*

Guest Speakers:

Juan Batlle, MD
Elena Bitrian, MD
Zelia Correa, MD
Rafael T. Cortez, MD
Peng Khaw, MD, PhD
Francis S. Mah, MD
Vinod C. Mehta, MD
Ernesto J. Otero, MD
Laura C. Sperazza, OD
Federico G. Velez, MD

Location:

InterContinental Miami Hotel
Miami, Florida
Tel. 800-327-0200 or
305-577-1000

Located in Downtown Miami, overlooking Biscayne Bay, the InterContinental Miami is conveniently close to Miami Beach and adjacent to Bayside Marketplace with its fashionable shops and restaurants, and walking distance to Museum Park. Thoughtfully designed with the business traveler in mind, the stylish rooms and suites all offer spectacular views of Miami. A selection of two restaurants provides guests with the choice of formal or casual dining while the fitness center includes an outdoor pool.

Hotel Rates:

\$205 plus tax; single or double occupancy.

InterContinental, Miami

Richard K. Lee, MD, PhD

Practical Applications of New Optical Coherence Tomography (OCT) Technologies (SD-OCT, OCT-A, SS-OCT) for Ocular Disease Diagnosis and Management

Optical Coherence Tomography (OCT) is now a widely utilized ophthalmic diagnostic technology. This program, which includes the co-inventors of the technology among its faculty, is unique in its approach. The basic physical principles of OCT and new OCT imaging modalities are reviewed, followed by a comprehensive discussion and review of current clinical applications in the diagnosis and management of glaucoma, neuro-ophthalmic, corneal, and retinal diseases. Case-based presentations and discussions with faculty and meeting attendees will highlight the utility and important role of OCT imaging in identifying ocular disease and its response to treatment in clinical practice.

Course Director:

Richard K. Lee, MD, PhD

Guest Speakers:

Donald L. Budenz, MD, MPH

Teresa C. Chen, MD

Jay S. Duker, MD

James G. Fujimoto, PhD

Luis E. Vazquez, MD, PhD

MIGS-travaganza! A Glaucoma Symposium

This one-day course is designed for physicians whose clinical practices include comprehensive ophthalmology and adult glaucoma care. Using an interactive, integrated approach, the distinguished speakers will present a variety of vignettes and practice pearls to illustrate topics in the surgical management of glaucoma with special attention to micro-incisional glaucoma surgery techniques and devices.

The topics will include: Ab-interno placement of gel stent and mini-shunt, angle based surgeries, trabecular microstent, and implants utilizing the suprachoroidal space. All topics will include an overview of mechanism of action, evidence for effectiveness, and video based presentation of how each procedure is done.

Course Directors:

Ta Chen Peter Chang, MD

Sarah R. Wellik, MD

Luis E. Vazquez, MD, PhD

Registration Fee: \$250

Location: Bascom Palmer Eye Institute, Miami, Florida

February 10, 2018

Angiogenesis, Exudation, and Degeneration 2018

Angiogenesis 2018 follows the tradition of excellence established by Bascom Palmer's widely acclaimed Angiogenesis programs between 2004 and 2017. Designed for retina specialists, general ophthalmologists and researchers, the current program will review the latest in translational research and clinical trials with an emphasis on how these results will impact clinical ophthalmology. We will emphasize recently completed studies for treatment of a broad spectrum of retinal diseases with special emphasis on age-related macular degeneration, diabetic retinopathy, and retinal vein occlusions.

Registration Fee: \$475

Location:

Mandarin Oriental Miami
Miami, Florida

The Mandarin Oriental Miami is a taste of Asian serenity in exhilarating Miami. Guests enjoy beautiful bay views, the pleasures of a private beach, and an exotic, soothing spa. For hotel information and reservations, call (800) 526-6566.

Hotel Rates: \$419 plus tax; single or double occupancy

Interactive Consultations in Cornea and Refractive Surgery

This two-day course is designed for physicians whose clinical practices include general ophthalmology, refractive surgery, pathologies of cornea, and lens. Using an interactive, case-based approach, the distinguished speakers will present a variety of vignettes and practice pearls to illustrate clinical dilemmas in the diagnosis and management of anterior segment diseases. The 2-day program will focus on refractive surgery including cataract and other lens-based refractive procedures, corneal refractive surgery and alternative refractive technologies, as well as disorders of the cornea and external disease.

The topics will include: cataract and refractive surgery pearls, presbyopia correction, collagen crosslinking, high-risk anterior segment surgery, management of severe ocular surface disease, and the medical and surgical techniques for management of various infectious and inflammatory conditions of the anterior segment. A case-based format will be used throughout the program to encourage a more interactive forum. A wet lab will also be available for participants to gain hands-on exposure to femtosecond cataract surgery and lamellar corneal surgical techniques.

Course Directors:

Guillermo Amescua, MD
Kendall E. Donaldson, MD, MS

Nasser Al-Rashid Orbital Research Colloquium

This one-day scientific meeting assembles a broad array of research scientists and clinicians whose expertise and focus are principally directed to orbital oncology, traumatic optic nerve injury, and stem cell and biomedical innovations for immediate clinical application. The core objective of the meeting is to move the orbital research community to a more multi- and interdisciplinary scientific mindset by removing barriers and creating a conducive environment to collaborative interactions among investigators from different disciplines. The presentations will highlight cutting edge molecular biology, genomic, and proteomic approaches to better understand the molecular underpinnings of these diseases and bring the state-of-the-art in advanced biomaterials and regenerative medicine technologies for translating research findings into clinical reality - with the ultimate aim of achieving improved visual outcomes and quality of life for orbital diseases in which effective therapy remains elusive. .

Bascom Palmer Eye Institute Distinguished Lecture Series

Bascom Palmer Eye Institute has maintained a commitment to physician education since its founding in 1962. Designed to bring outstanding leaders in the world of ophthalmology to Bascom Palmer, our **Distinguished Lecture Series** honors the life and work of four exceptional ophthalmologists.

The Edward W.D. Norton Lecture, jointly sponsored by Bascom Palmer Eye Institute and the Miami Ophthalmological Society, is named for the insightful physician, professor and administrator who founded Bascom Palmer Eye Institute and guided its growth for more than three decades. **The Victor T. Curtin Lecture** is named in honor of the Institute's first faculty recruit, mentor, scholar and dedicated teacher. **The Randy Campo** (resident, 1981) and **Robert Haimovici** (resident, 1990) **Lectures** are named in memory of these outstanding alumni, both of whom left an indelible mark on their colleagues and the Institute.

Frontiers in Vision Science Lecture Series

The future of ophthalmology lies in the creation of new knowledge and technology and its rapid translation into the clinic to help people. Bascom Palmer Eye Institute's research mission is to make this happen through interdisciplinary team research and cutting-edge technology. The Frontiers in Vision Science Lecture Series, now in its 16th successful season features distinguished scientists from across the nation.

Other Educational Opportunities

José A. Berrocal Auditorium, Bascom Palmer Eye Institute

Bascom Palmer offers a wide variety of educational opportunities in addition to its highly regarded continuing medical education courses and distinguished lecture series.

Each Thursday morning from 7:00 a.m. to 8:30 a.m., Grand Rounds is presented in the Jose Berrocal Auditorium. Faculty, residents, fellows, observers, medical students and community doctors come together to learn of the newest clinical research and treatments in order to increase their medical knowledge and improve patient care. Additionally, didactic lectures are held each weekday morning from 7:00 a.m. to 8:00 a.m. (excluding Thursdays), and feature all ophthalmic subspecialties.

A complete listing of our educational programs can be found on our website at bascompalmer.org.

If you are visiting Miami and would like to attend Grand Rounds or one of our morning lectures, please contact Kathy Corser at kcorser@med.miami.edu
