January 19, 2019

Bascom Palmer Eye Institute invites you to Miami this winter to join us for our *Bascom Palmer MIGS-travaganza 2019: The Edge of Tomorrow* CME program. This unique and exciting **symposium and wet lab** will be held January 19, 2019 at the Bascom Palmer Eye Institute in Miami.

Come see us this winter in Miami!

DATE

Saturday, January 19, 2019: 7:30 am to 5:00 pm

LOCATION

Bascom Palmer Eye Institute
900 NW17th Street
Miami, Florida 33135

COURSE DESCRIPTION

This one-day course is designed for physicians whose clinical practices include comprehensive ophthalmology and adult glaucoma care. Using an interactive, integrated approach, the distinguished speakers will present a variety of vignettes and practice pearls to illustrate topics in the surgical management of glaucoma with special attention to micro-incisional glaucoma surgery techniques and devices.

The topics will include: Ab-interno placement of gel stent and mini-shunt, angle based surgeries, trabecular microstent, and implants utilizing the suprachoroidal space. All topics will include an overview of mechanism of action, evidence for effectiveness, and video based presentation of how each procedure is done.

COURSE OBJECTIVES

Upon completion of this program, participants should be able to:

- Evaluate medical evidence methodically by an increased familiarity with recent notable publications
- Evaluate the pros and cons of different minimally invasive glaucoma procedures
- Appraise when and how to perform various techniques for angle based surgery in glaucoma
- Incorporate new intraoperative devices to assist in glaucoma surgery
