“For more than five decades, Bascom Palmer has been making life-changing discoveries in every field of ophthalmology, including innovative treatments for glaucoma, age-related macular degeneration, optic nerve diseases, ocular oncology, and advanced surgical procedures. Now, our dedicated team of clinicians, scientists and educators are focusing on the future in keeping with our tradition of leadership in vision beyond 2020.”

Eduardo C. Alfonso, M.D.
Director, Bascom Palmer Eye Institute
Kathleen and Stanley J. Glaser Endowed Professor in Ophthalmology
You are invited to Bascom Palmer’s 2019-2020 educational programs

Dear Colleagues,

Welcome to Bascom Palmer Eye Institute’s new Global Center for Ophthalmic Education and its robust calendar of educational programs. Bascom Palmer has a deep tradition of creating medical programs that are relevant and applicable to your clinical practice, showcase the latest technologies, and highlight emerging trends.

The academic year begins with “Meet the Experts” at the 2019 American Academy of Ophthalmology Annual Meeting in San Francisco, where Bascom Palmer’s faculty will engage with you in Booth 7244.* Our extensive calendar of continuing medical education courses continues with the esteemed Distinguished Lecture Series, the popular Inter-American Course in Clinical Ophthalmology (CURSO), our excellent residency, fellowship and medical student programs, our unique graduate degree - the Master of Science in Vision Science and Investigative Ophthalmology (MVSIO), and our wide-ranging CME course offerings.

We also invite you to join us each Thursday morning at Grand Rounds where our faculty members, residents and fellows present medical conditions and treatments, and share our latest research advancements.

We look forward to welcoming you to Bascom Palmer to join us in learning, discussing and sharing the very best care for your patients.

Very truly yours,

Eduardo C. Alfonso, MD
Director, Bascom Palmer Eye Institute
Chair, Department of Ophthalmology
University of Miami Miller School of Medicine
Kathleen and Stanley J. Glaser Endowed Professor in Ophthalmology
Co-Medical Director
University of Miami Hospital and Clinics UHealth
Chief of Ophthalmology Service
Jackson Health System

Steven J. Gedde, MD
Professor of Ophthalmology
John G. Clarkson Chair in Ophthalmology
Vice Chair of Education
Bascom Palmer Eye Institute
Director, Bascom Palmer Global Center for Ophthalmic Education

*Bascom Palmer’s booth presentations are not affiliated with the official program of AAO 2019.

41st Annual Inter-American Course in Clinical Ophthalmology (Curso)

The Inter-American Course is designed for practicing ophthalmologists in Latin America and the Caribbean to provide maximum emphasis on practical approaches to selected clinical problems. Hundreds of ophthalmologists from more than 30 countries benefit from the program and its simultaneous English-Spanish translation.

Course Directors:
Eduardo C. Alfonso, MD
Carol L. Karp, MD
Paul F. Palmberg, MD, PhD

Guest Speakers:
Juan F. Batlle, MD
David G. Campbell, MD
Victoria Cohen, MA, MB Chir, FRCOphth
Rafael T. Cortez, MD
Angela Fernandez, MD
Luis Fernandez-Vega, MD
Enrique O. Graue-Hernandez, MD
S.P.S. Grewal, MD
Geetha Iyer, MD
Tamara Juvier, MD
Ramiro Maldonado, MD
Rene Moya, MD
Victor L. Pérez, MD
Juliana Sallum, MD
Laura C. Sperazza, OD
Bhaskar Srinivasan, MD

Registration Fee:
$575 on or before September 27, 2019;
$675 after September 27, 2019

*No AMA Continuing Medical Education Credits will be awarded for this program.
Location:
DoubleTree by Hilton Hotel
Miami Airport & Convention Center
Miami, Florida
Tel. 305-261-3800

The modern DoubleTree by Hilton Hotel Miami Airport & Convention Center is connected to the Miami International Merchandise Mart and the Miami Airport Convention Center (MACC). The hotel is just minutes from the Miami International Airport (MIA) and offers 24-hour complimentary airport transportation to and from Miami International Airport. A beauty salon and spa, free wi-fi, four restaurants, shops, and pool, are some of the amenities you will find at the DoubleTree by Hilton Hotel Miami Airport.

Hotel Rates:
$179 plus tax; single or double occupancy.
Practical Applications of Optical Coherence Tomography Technologies in the Diagnosis and Management of Ocular Disease

Optical Coherence Tomography (OCT) is now a widely utilized ophthalmic diagnostic technology. This program, which includes the co-inventors of the technology among its faculty, is unique in its approach. The basic physical principles of OCT and new OCT imaging modalities are reviewed, followed by a comprehensive discussion and review of current clinical applications in the diagnosis and management of glaucoma, neuro-ophthalmic, corneal, and retinal diseases. Case-based presentations and discussions with faculty and meeting attendees will highlight the utility and important role of OCT imaging in identifying ocular disease and its response to treatment in clinical practice.

Course Directors:
Richard K. Lee, MD, PhD
Jorge A. Fortun, MD

Guest Speakers:
Donald L. Budenz, MD, MPH
Jay S. Duker, MD
James G. Fujimoto, PhD
Felipe A. Medeiros, MD, PhD
Joel S. Schuman, MD, FACS
Rishi Singh, MD

Registration Fee: $350

Location: The Breakers, Palm Beach, Florida
A luxurious oceanfront hotel, The Breakers is one of America’s legendary resort destinations. Listed on the National Register of Historic Places, The Breakers is set amidst 140 acres of breath-taking oceanfront property, and offers extensive amenities and activities. For hotel information and reservations, call (888) 273-2537.

Hotel Rates: $370 plus tax; single or double occupancy
MIGS-travaganza 2020: A New Hope

This one-day course is designed for physicians whose clinical practices include comprehensive ophthalmology and adult glaucoma care. Using an interactive, integrated approach, the distinguished speakers will present a variety of vignettes and practice pearls to illustrate topics in the surgical management of glaucoma with special attention to micro-incisional glaucoma surgery (MIGS) techniques and devices.

The topics will include: How to transition from traditional glaucoma surgery to MIGS, how to evaluate new clinical evidence associated with new surgical techniques, and how to deal with MIGS complications.

Course Directors:
Ta Chen Peter Chang, MD
Sarah R. Wellik, MD
Luis E. Vazquez, MD, PhD

Registration Fee: $250

Location:

Vikas Chopra, MD
Marlene R. Moster, MD
Robert J. Noecker, MD, MBA

Bascom Palmer Eye Institute, Miami, FL
Angiogenesis, Exudation, and Degeneration 2020

Angiogenesis 2020 follows the tradition of excellence established by Bascom Palmer’s widely acclaimed Angiogenesis programs between 2004 and 2019. Designed for retina specialists, general ophthalmologists and researchers, the current program will review the latest in translational research and clinical trials with an emphasis on how these results will impact clinical ophthalmology. We will emphasize recently completed studies for treatment of a broad spectrum of retinal diseases with special emphasis on age-related macular degeneration, diabetic retinopathy, and retinal vein occlusions.

Interactive Consultations in Cornea, Cataract and Refractive Surgery 2020

This two-day course is designed for ophthalmologists, optometrists and contact lens specialists whose clinical practices include general ophthalmology, cataract, refractive surgery, and cornea. Using an interactive, case-based approach, the distinguished speakers will present a variety of vignettes and practice pearls to illustrate clinical dilemmas in the diagnosis and management of anterior segment diseases. The 2-day program will focus on cataract, refractive surgery, disorders of the cornea and external disease, primary care optometry and contact lens fitting.

Course Directors:

Registration Fee:
$300
Location:
Bascom Palmer Eye Institute
Miami, FL

bascompalmer.org
This one-day scientific meeting assembles a broad array of research scientists and clinicians whose expertise and focus are principally directed to orbital oncology, traumatic optic nerve injury, and stem cell and biomedical innovations for immediate clinical application. The core objective of the meeting is to move the orbital research community to a more multi- and interdisciplinary scientific mindset by removing barriers and creating a conducive environment to collaborative interactions among investigators from different disciplines. The presentations will highlight cutting edge molecular biology, genomic, and proteomic approaches to better understand the molecular underpinnings of these diseases and bring the state-of-the-art in advanced biomaterials and regenerative medicine technologies for translating research findings into clinical reality - with the ultimate aim of achieving improved visual outcomes and quality of life for orbital diseases in which effective therapy remains elusive.

Bascom Palmer Eye Institute has maintained a commitment to physician education since its founding in 1962. Designed to bring outstanding leaders in the world of ophthalmology to Bascom Palmer, our Distinguished Lecture Series honors the life and work of exceptional ophthalmologists.

The Edward W.D. Norton Lecture, jointly sponsored by Bascom Palmer Eye Institute and the Miami Ophthalmological Society, is named for the insightful physician, professor and administrator who founded Bascom Palmer Eye Institute and guided its growth for more than three decades. The Victor T. Curtin Lecture is named in honor of the Institute’s first faculty recruit, mentor, scholar and dedicated teacher. The Randy Campo (resident, 1981) and Robert Haimovici (resident, 1990) Lectures are named in memory of these outstanding alumni, both of whom left an indelible mark on their colleagues and the Institute. The new Founding Father’s Speaker Series will pay tribute to the life and ophthalmic contributions made by John T. Flynn, MD, J. Lawton Smith, MD, and J. Donald Gass, MD.

The Frontiers in Vision Science Lecture Series

The future of ophthalmology lies in the creation of new knowledge and technology and its rapid translation into the clinic to help people. Bascom Palmer Eye Institute’s research mission is to make this happen through interdisciplinary team research and cutting-edge technology. The Frontiers in Vision Science Lecture Series, now in its 18th successful season features distinguished scientists from across the nation.

Bascom Palmer offers a wide variety of educational opportunities in addition to its highly regarded continuing medical education courses and distinguished lecture series.

Each Thursday morning from 7:00 a.m. to 8:30 a.m., Grand Rounds is presented in the Jose Berrocal Auditorium. Faculty, residents, fellows, observers, medical students and community doctors come together to learn of the newest clinical research and treatments in order to increase their medical knowledge and improve patient care. Additionally, didactic lectures are held each weekday morning from 7:00 a.m. to 8:00 a.m. (excluding Thursdays), and feature all ophthalmic subspecialties.

A complete listing of our educational programs can be found on our website at bascompalmer.org.

If you are visiting Miami and would like to attend Grand Rounds or one of our morning lectures, please contact Patricia Gonzalez at pmg101@miami.edu.
